

Title of the Asian Workshop on Polymer Processing 2008

14 pt. of Arial or Helvetica fonts are recommended.

*Author Name 1 and Author Name 2 (Times or Times New Roman with 12 pt.)

Department of Chemical Engineering, ABC University

E-mail: aaa@bbb.ccc.ac.jp (corresponding author's address)

Please add “*” to the speaker's name, and write about 200 words abstract following the author list. 10 pt. of Times or Times New Roman font is recommended for the abstract text. This is the writing guide of the extended abstract for the Asian workshop on polymer processing 2008 in Japan. This is the writing guide of the extended abstract for the Asian workshop on polymer processing 2008 in Japan.

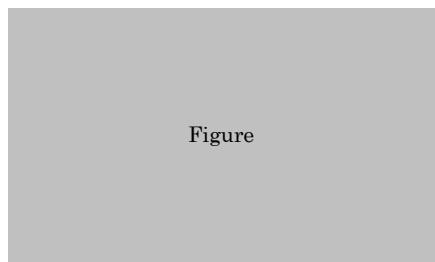

Keywords: Please list 3 – 5 keywords.

Introduction

Extended abstract should be ready for the digital publication. PDF format is requested for the abstract submission. If the author has difficulty to convert the manuscript to PDF format, MS word file submission is alternatively accepted. Guide of the main text style is as follows; 11 pt. of Times or Times New Roman fonts with 14 pt. space, and two columns. Because the book of extended abstracts will be published in gray scale, the authors should pay attention to the coloring of their graphs and figures. Although the recommended page number of the Extended Abstract is two pages, the author who wishes to write more pages can submit longer Extended Abstract. Please note that page number should be even number. All figures and tables should be appropriately included in the abstract.

Experimental Apparatus

This is the writing guide of the extended abstract for the Asian workshop on polymer processing 2008 in Japan. This is the writing guide of the extended abstract for the Asian workshop on polymer processing 2008 in Japan.

Figure

Figure 1 Experimental apparatus

Numerical Simulation

Equation is appropriately included in the main text.

$$A=B+C \quad (1)$$

Table1 Material properties

Material	Type
polystyrene	A
polyethylene	B

Results and Discussion

This is the writing guide of the extended abstract for the Asian workshop on polymer processing 2008 in Japan.
